Staff Spotlight

Amy Crump was nominated for this weeks staff spotlight by two different staff members. She was nominated for always helping cover classes and generously giving up both of her plans to help make sure that our students didn't get behind! She also is fantastic at making sure her students stay on top of everything in our algebra classes and is constantly keeping lines of communication open and updated between she and the regular algebra teachers. Please make sure and thank Ms. Crump for all she does for our students this week and for being a team player at BSHS. We all have a ton of stuff on our plates to do each week, and it is always a blessing when someone sacrifices their own needs to help fellow teachers/students out. Thank you Ms. Crump!

Never forget how much you matter each and everyday. Small deeds are sometimes life changing moments. I hope this video will inspire you to never forget that:
